

MADE IN QATAR. READY FOR THE WORLD.

Precision boatbuilding, refit, and repair - strategically based at Um Al Houl Free Zone with direct Hamad Port connectivity.

WORLD-CLASS SHIPBUILDING, REFIT & MAINTENANCE

Your Gateway to Marine Excellence: Where technology meets craftsmanship for peak performance.

Our expertise spans from hydrofoil-assisted catamarans to large-scale vessels, setting new benchmarks in quality, performance, and reliability.

MISSION

We strive to provide exceptional marine solutions tailored to our clients' needs — from custom-built vessels to advanced refits and maintenance — ensuring safety, innovation, and superior performance on every voyage.

VISION

To be a leading force in the maritime industry, redefining shipbuilding and marine services in the Gulf region through cutting-edge technology, precision engineering, and sustainable solutions.

WHAT WE DO

We build, refit, and upgrade vessels with advanced systems—delivering performance, safety, and reliability so your fleet is ready today and tomorrow.

»» YACHT BUILDING (30–80M)

Custom catamarans and performance craft engineered for Gulf waters - designed, built, and finished in-house.

»» MAINTENANCE & REFIT

Hull, mechanical, electrical, electronics, paint/gelcoat - complete lifecycle care for commercial and leisure vessels.

»» INTERIOR DESIGN & FITOUTS

Concept, joinery, upholstery, lighting/AV fit-out - comfort and durability without compromise.

»» REPAIR YARD

Haul-out, inspections, rapid-turnaround repair with disciplined QA and documentation.

SECTORS WE SERVE

We build, refit, and upgrade vessels with advanced systems—delivering performance, safety, and reliability so your fleet is ready today and tomorrow.

Commercial operators

- Preventive maintenance, refit, and class compliance
- Rapid AOG repairs and spares sourcing
- Systems upgrades: propulsion, electrical, nav/comm

Government & Defense Support

- Patrol/RHIB support, hull & systems overhauls
- Electronics/integration for mission kits and comms
- Documentation, trials, and through-life support

Offshore & Onshore Services

- Workboats/CTV maintenance, deck gear servicing
- Corrosion protection, coatings, and hull reinforcement
- Powertrain, hydraulics, and safety systems upgrades

Leisure Craft Owners

- Custom interiors, upholstery, and AV/lighting
- Engine, electrical, and electronics refresh
- Season prep, detailing, and caretaking/storage

Charter & Hospitality Fleets

- Custom interiors, upholstery, and AV/lighting
- Engine, electrical, and electronics refresh
- Season prep, detailing, and caretaking/storage

PRODUCTION LINE

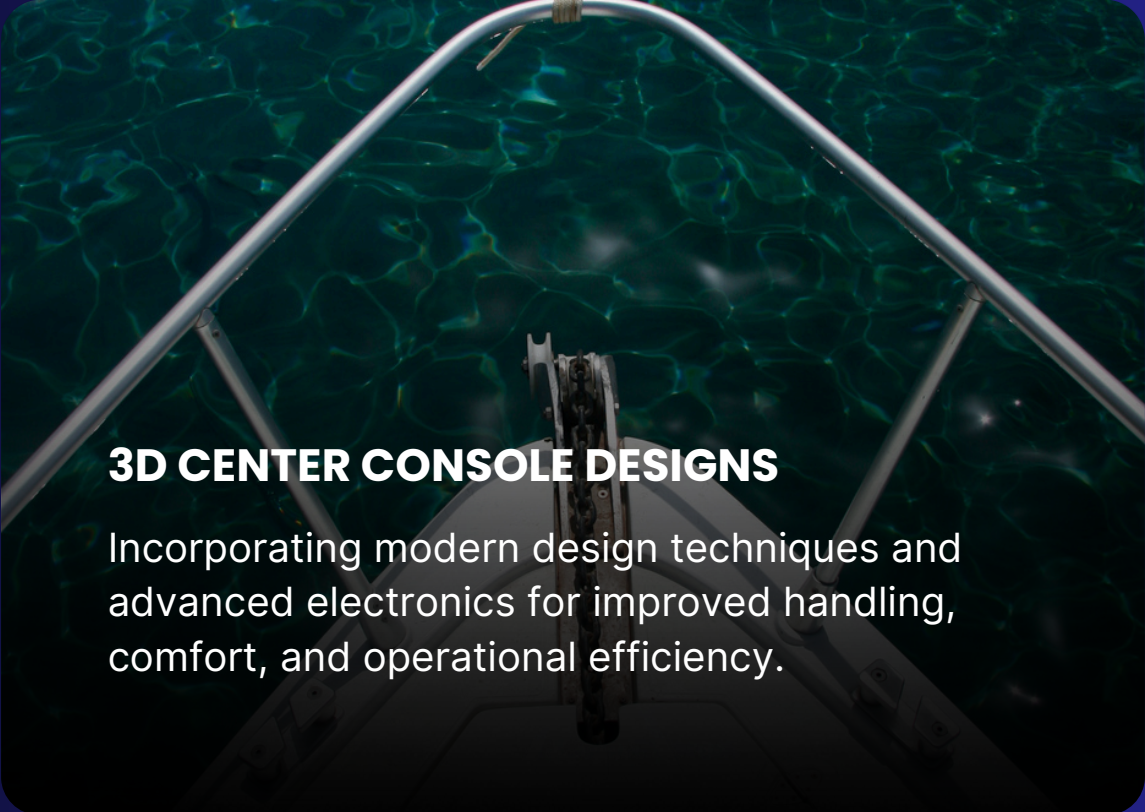

At Jinan Shipyard, innovation fuels every stage of our production. Our advanced facilities and skilled workforce ensure that each vessel is built with precision, efficiency, and world-class quality.

We focus on delivering marine solutions that meet the demanding conditions of Gulf waters while maintaining superior design and performance standards.

RUGGED PERFORMANCE PLATFORMS

Built to endure the harsh marine environment of the Gulf, our vessels are designed for strength, durability, and reliable performance in all sea conditions.

3D CENTER CONSOLE DESIGNS

Incorporating modern design techniques and advanced electronics for improved handling, comfort, and operational efficiency.

LARGE-SCALE MARINE PROJECTS

Delivering high-capacity vessels that combine robust construction with sophisticated engineering, meeting the needs of both commercial and luxury markets.

WHY JINAN

UNBEATABLE LOCATION

Inside Qatar Free Zone, footsteps from Hamad Port - tax incentives, customs-free ops, and seamless logistics.

ENDURING STANDARDS

Integrity, quality, innovation, client satisfaction, and sustainability guide every build and service program.

PURPOSE-BUILT FACILITIES

A modern marine factory and yacht warehouse designed for manufacturing, service, and storage.

CUSTOMIZED SERVICES

From shipbuilding to refits and conversions, we deliver bespoke marine solutions with precision and style.

CORE SERVICES

MARINE EQUIPMENT SUPPORT

SURVEY & REPORT

SHIPBUILDING

We build high-performance vessels designed for Gulf waters, blending precision engineering, innovative design, and unmatched quality. Our expertise includes:

DESIGN & PLANNING

We create detailed designs and 3D models based on client requirements, ensuring vessels are safe, efficient, and purpose-built.

CONSTRUCTION & OUTFITTING

Hulls and components are assembled with precision, followed by installation of engines, systems, and interiors using modern technology for peak performance.

TESTING & DELIVERY

Vessels undergo thorough inspections and sea trials to ensure quality and compliance, before being delivered with full documentation and ongoing support.

REPAIRS & MAINTENANCE

We deliver reliable repair and maintenance services to keep vessels operating at peak condition. From routine checks to complex overhauls, our expert technicians ensure minimized downtime and lasting performance.

INSPECTION & ASSESSMENT

Conducting a detailed evaluation of every component of your vessel to accurately identify issues, assess condition, and prioritize necessary repairs.

REPAIR & OVERHAUL

Skilled technicians carry out engine rebuilds, precise repairs, part replacements, and system upgrades, ensuring your vessel operates at peak performance and reliability.

QUALITY ASSURANCE

Rigorous testing and inspection verify that all systems function flawlessly, guaranteeing safety, performance, and long-lasting durability.

REFITS & CONVERSIONS

We breathe new life into existing vessels through expert refit and conversion services. Our team ensures that every vessel is updated to modern performance, safety, and environmental standards.

CONSULTATION & PLANNING

Collaborating with clients to understand goals, assess vessel condition, and develop a tailored refit or conversion plan.

EXECUTION & TRANSFORMATION

Skilled teams implement structural, mechanical, and aesthetic modifications, ensuring seamless integration and enhanced functionality.

TESTING & DELIVERY

Comprehensive inspections and sea trials confirm all systems perform flawlessly, delivering a vessel that meets safety, performance, and design expectations.

MARINE EQUIPMENT SUPPORT

We supply, install, and maintain advanced marine equipment to enhance vessel safety, performance, and efficiency. Our solutions are tailored to meet the diverse needs of commercial and leisure crafts.

ASSESSMENT & PLANNING

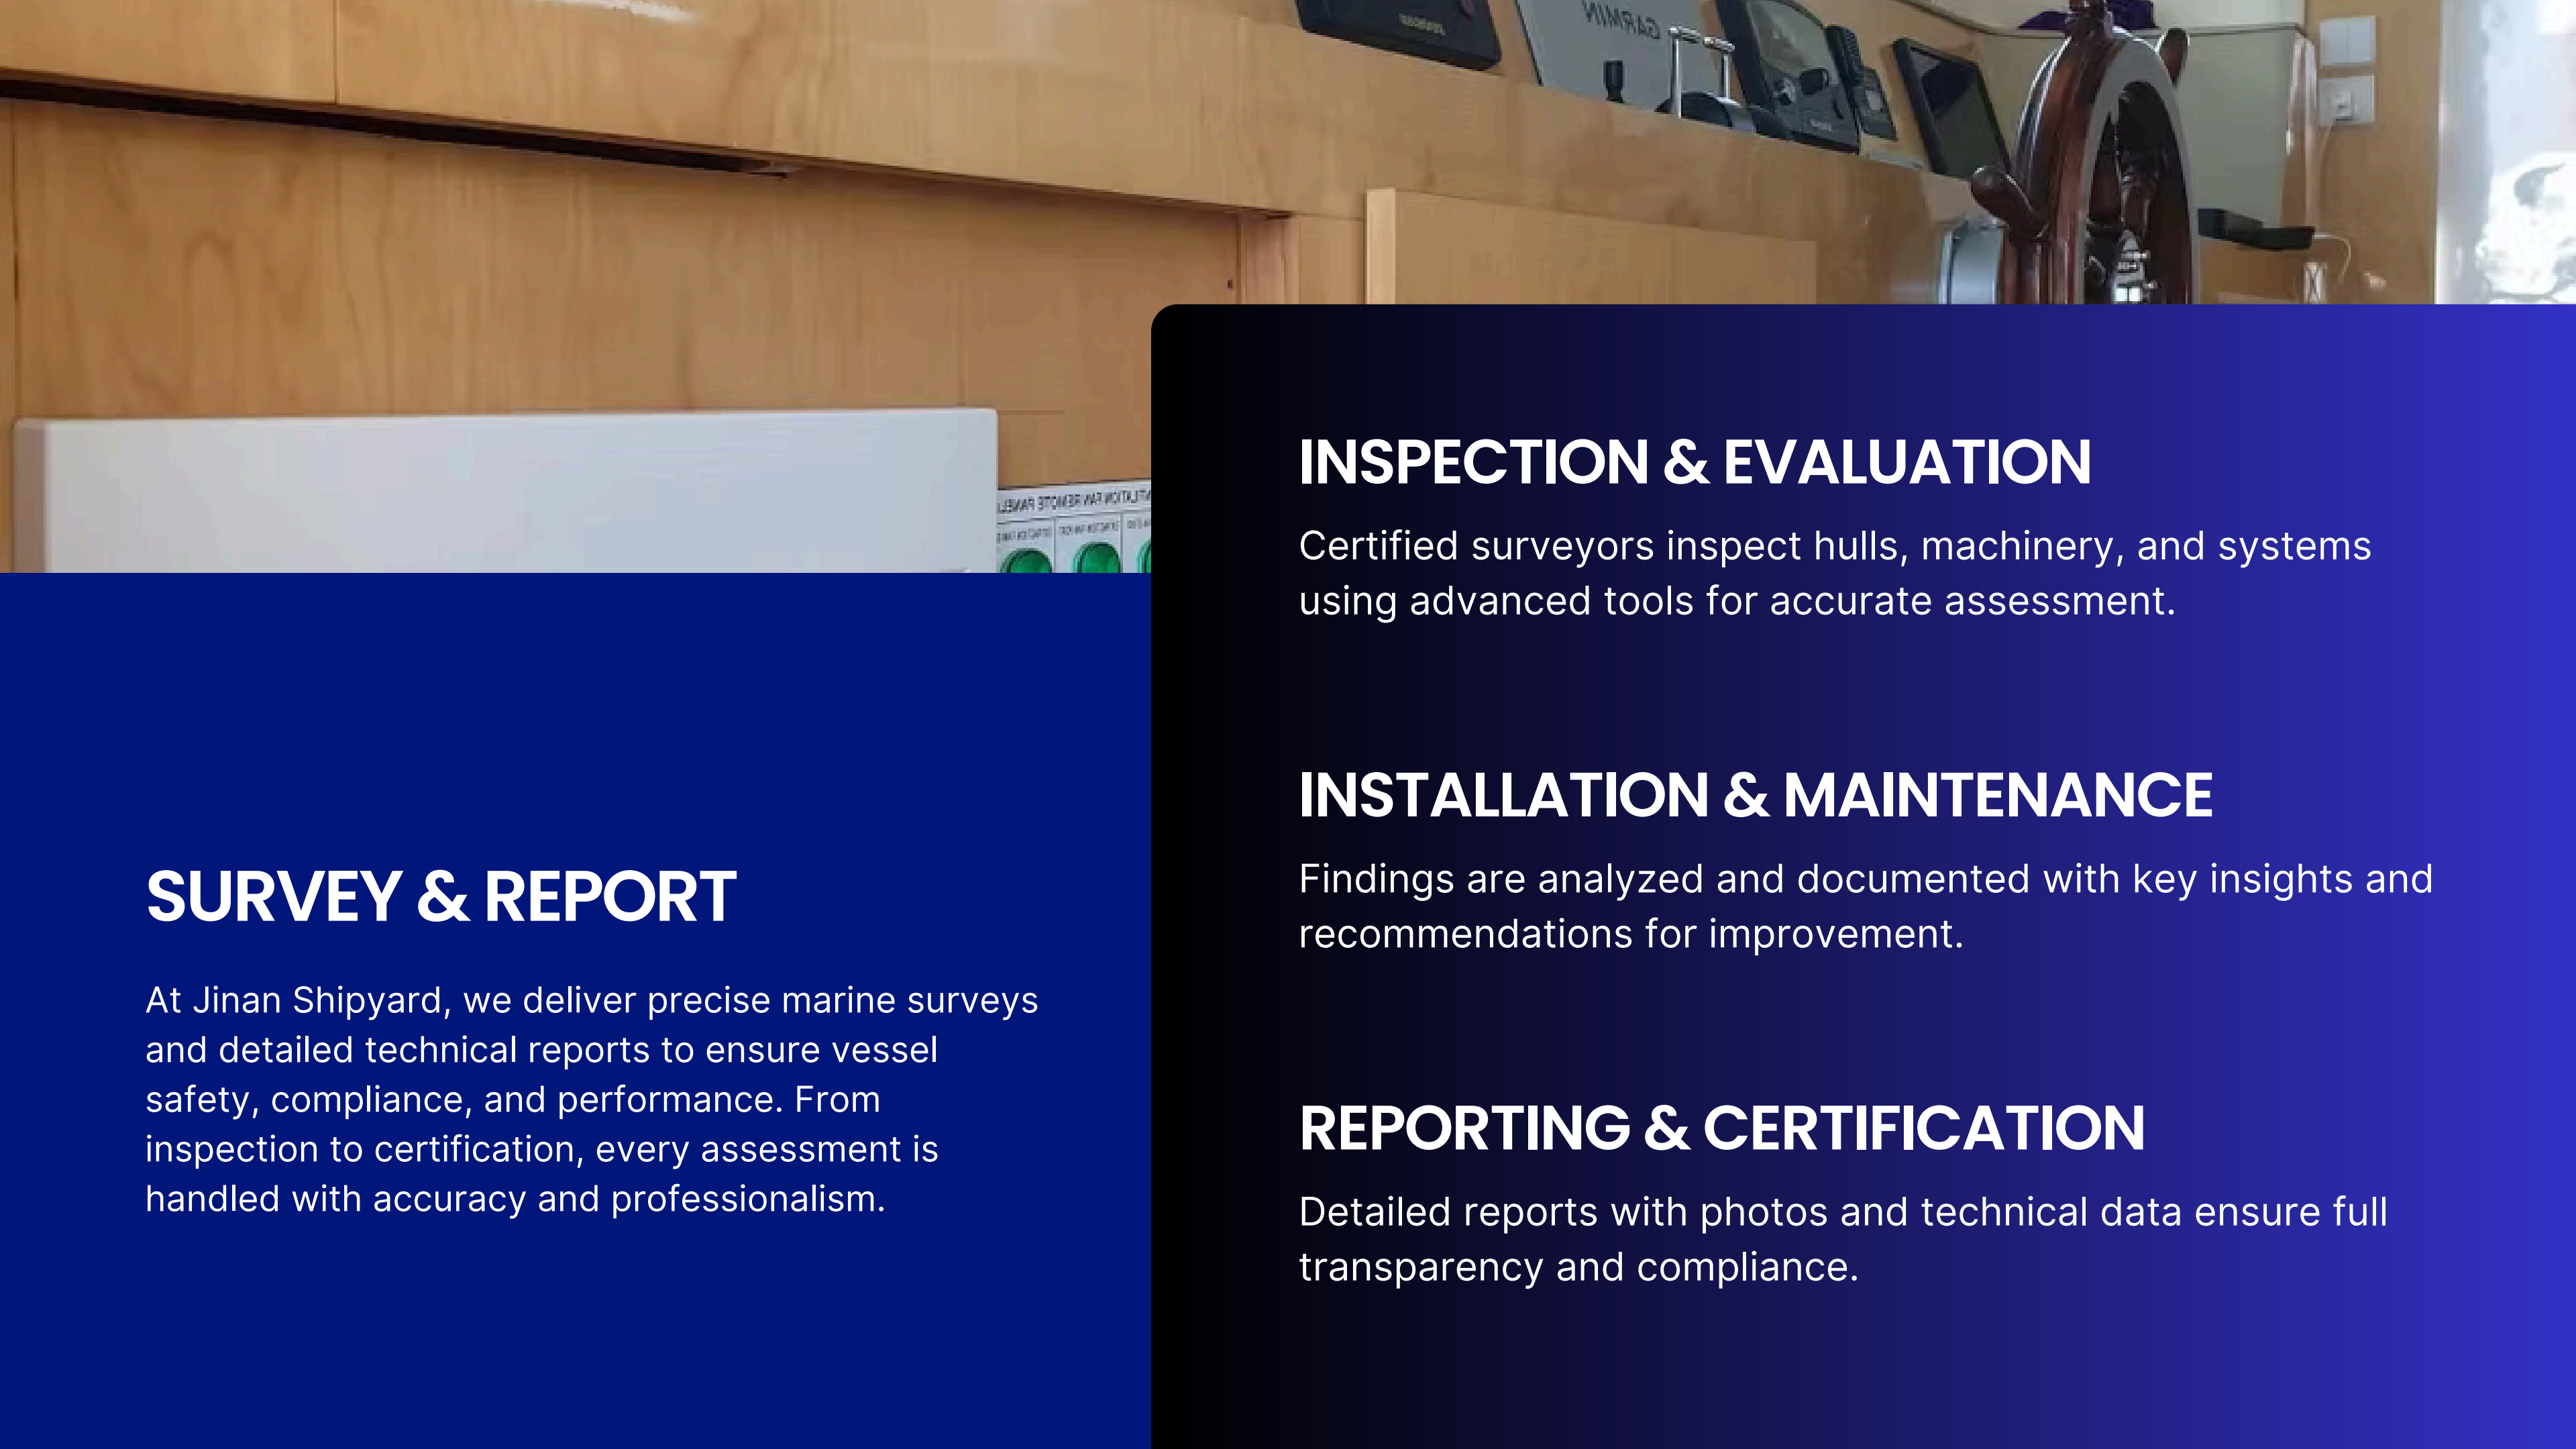

Evaluating your equipment needs, diagnosing issues, and developing a tailored support plan to ensure optimal performance.

INSTALLATION & MAINTENANCE

Expert technicians handle precise installation, routine maintenance, and necessary repairs to keep systems running efficiently.

TESTING & OPTIMIZATION

Comprehensive testing and fine-tuning guarantee equipment reliability, safety, and peak operational efficiency.

SURVEY & REPORT

At Jinan Shipyard, we deliver precise marine surveys and detailed technical reports to ensure vessel safety, compliance, and performance. From inspection to certification, every assessment is handled with accuracy and professionalism.

INSPECTION & EVALUATION

Certified surveyors inspect hulls, machinery, and systems using advanced tools for accurate assessment.

INSTALLATION & MAINTENANCE

Findings are analyzed and documented with key insights and recommendations for improvement.

REPORTING & CERTIFICATION

Detailed reports with photos and technical data ensure full transparency and compliance.
